39Yrs experience in ***Management and Financial Consulting, Application Design and Business Process Consulting***. Founder Director of Unilink Software Pvt. Ltd., a software development and consulting company, which boasts of its satisfied clients (Corporates, Indian Defense Organizations, SMEs, High end NGOs and iNGOs).

In my career I have worked with International and National NGOs, bilateral organizations, UN agencies, government and Defence organizations and corporates to deliver sustainable solutions through stakeholder engagement and community participation. I am optimally rooted and have a profound understanding of social and corporate development.

I have used my administrative, Management and IT knowledgebase in leveraging the corporate and Non Profit sector consulting arena. I have designed and developed many Management Information, IT & Software assignments in the social development as well as corporate initiatives, few of which are detailed below:

- Worked on many *Indian Navy Projects*.
 - ➔ Designed, Developed and implemented a *Materials Management System* which is implemented on *all major war ships, submarines* and many *on shore establishments* of *Indian Navy*.
 - ➔ Designed and implemented an *Enterprise based Requirement Planning System* for *Indian Navy Ship Dock Yard*. This is a very ambitious project and covers around 17 applications and business processes.
- Worked as a consultant *for United Nations Development Project (UNDP), Cambodia*
 - ➔ Designed a specialized *Document Management System* for their projects in Cambodia.

- Worked as a ***Business Process Consultant*** with **SOS Children's Villages of India**, An Austria based NGO having 45 establishments in India, *and presence in 130 countries worldwide.*
 - ➔ Designed an ***online Expense Management System*** which monitors all expenses in the organization.
 - ➔ Covers complete budgeting creates a workflow around all accounting processes involving ***CAPEX and OPEX***
 - ➔ Created Expense Monitoring for SOS projects covering ***Family Support Programs***
- Worked as a consultant for **Sasakawa India Leprosy Foundation**, *A Japanese NGO with presence in 120 countries in the world.*
 - ➔ Helped the organizations in designing and developing an ***online Project Management System.***
 - ➔ Creation of software based ***Project Feasibility Reports***
 - ➔ ***Creating MIS with drill down Reports*** with
 - ➔ ***Specialized Charts and Dashboards***

- **India HIV/AIDS Alliance**, worked for communities affected by AIDS
 - ➔ Designed ***Project Timesheet Management System***
 - ➔ Designed ***Funds and Bank Reconciliation System***
 - ➔ Designed ***Third Party Funding Agency Billing Reconciliation System***
- **Consultant for setting up E-Commerce Website/ Mobile App/ Store**
- Worked as ***Functional and Business Process Consultant*** and a ***core team member*** for SAP implementation and software database integration for various clients.
- Worked on ***Enterprise Mobility Solutions*** to help Clients to manage and monitor ***Key Performance Indicators*** and make decisions based on visibility to the right information.

Few key corporates for which these solutions were designed are

- Sandisk, USA,
- Equinix USA and
- Agilent Technologies USA.

- Actively Involved in ***Business Process Consulting*** and ***management of Mobile App Development*** for ***iPhone and Android Smartphones***.
- Actively involved in ***HR automation consulting (HR activity portal implementation and customization)***. Also involved into recruitment consulting and services for existing clients
- Worked closely on development and implementation of ***Trading strategies and Algorithms*** using world renowned software API platforms ***for High Frequency Trades (HFT)*** and Technical based Trading in multiple exchanges.

Specialties:

- **Mobile Apps, Database concentric Web Applications and Portals** Designing and Database design for Enterprise wide Mobile Applications using *iOS and Android and Cross Platform frameworks like React Native, Titanium and Phonegap, Microsoft Technologies and Open Source platforms.*
- **Utility Software** and Database Design for **Hospitality and Retail Verticals**
- Specialized **CRM design** for Non Profit verticals and Structuring and Management NGOs and iNGOs.
